It shows error when entered password or username is not correct , or if its empty BUT IF Log in is correct then it will open to this Main Menu

The screenshot displays the Eclipse IDE environment. The main window shows the 'BEEII EVENTS BOOKING' application. The application has a dark blue sidebar with a logo and navigation links: 'My Account', 'Event information', 'View Tickets', 'Register for Event', and 'Log Out'. The main content area features a large image of a group of people in pink outfits, with the text 'BEEII EVENTS BOOKING' at the top and 'Reserve now and pay on the venue!' at the bottom. Below the image are social media icons for Facebook, Instagram, Twitter, and YouTube, along with a 'Contact Us!' link.

The IDE's background shows a SQL query result table with the following data:

id	username
1	annie11
2	dfhd
3	x
4	ad
5	eve00
6	brade45

The IDE's status bar at the bottom indicates 'Ready', 'Writable', 'Smart Insert', '1:30:29', and 'Sel: 0 | 0'.
